

Passionata Celebrates 3 Years by Extending its Range

Shannon has a sensational selection of truly romantic floaty dresses, all one-offs, made from vintage petticoats and using vintage lace, fabric and embellishments. These dresses are great for special occasions including balls, weddings, cruises and parties. They are simply fabulous for travel, as they take hardly any space in a suitcase and don't crush or squash.

Vera Laskina's couture accessories include beautiful gloves, lacy wrist and glamorous over-the-elbow gloves that

are great for dressing up any outfit. We have sexy one-off bustieres created by Robyn Simich with beaded handwork made especially for Passionata.

Just arrived is a large selection of scarves from linen and silk to Pashmina mix, priced from \$15 each.

"I love fashion from every era," says Shannon, "and feel hugely privileged to be able to offer an inspiring and eclectic mix of new and old to my customers."

Passionata was created through Shannon's love of beautiful things, and

now she has combined her passion for beauty products, gift items and collectibles, with her enthusiasm for couture fashion designed with her clients in mind.

"At Passionata we strive to make your visit the most rewarding experience of your day. Many of our customers say 'this shop is every woman's dream'. We look forward to meeting you soon!"

"Vintage fashion tends to come in small sizes," says Passionata's Shannon Chester, "and as size 8 simply doesn't work for everyone, we are expanding our range to include a selection of new couture, including amazing one-offs made from vintage lace and fabric."

SHANNON CHESTER.
